

GAME DESIGN DOCUMENT (GDD)

(See Demo for now)

Game Name: R.P.G.G. = Really Peculiar Geeky Game

Genre: RPG/ Roguelite / Arcade Shooter for demo

Game Elements:

Talk to the quest giver between each level for lore and quest (not implemented yet)

Go to a finite lvl where the player will be doing the following:

- lvl1 kill easy wave of ennemy ==> for demo : infinite waves of ennemies with a boss every 10 kills //
- lvl2: pick up fruits and such (have to pick a certain amount to go to nxt lvl) (not implemented yet)
- lvl3: 2nd wave of ennemies (more hp, more dmg, more in quantity) (not implemented yet)
- Boss phase

Player: 1

Arcade Game principle: kill the biggest number of ennemies you can and get your name on the Highscore Board.

TECHNICAL SPECS

Technical Form: 2D

View: Side view

Device: PC

GAME PLAY

Game Play Outline :

• Opening the game application: Main menu with a play button

• Game options : character selection / Pause Menu / Highscore Board

• Story synopsis: Universes collided, realities are encroaching on each other, madness sitting on its throne, enjoy the show. A peculiar hero comes out of hiding to fight the chaos and helps the few who survived.

• Modes: One mode

• Game elements ==> 3 Heroes with different stats / Enemies with different stats / Boss which shoot bullets / Platform and jump /

• Game levels: 6 intermissions w/ Quest Giver and 5 lvl (1 for demo)

• Player's controls :

Q : back/left

D: fwd right

Space :jump

mouse lftbtn: shoot

E: interact (not implemented yet)

(put 1234 for different spells and stuff? Or just for now for consumable ==> later on i suppose)

• Winning: No winning high score principle (no high score table yet)

• Losing : Death

• End: Death

• Why is all this fun?

High score principle / beat others kill waves after waves of enemies / retro gaming

Key Features:

Shooter / retro gaming / fun music / hard but fun / simple game

Player Definitions

A suggested list may include:

- Health ==> not yet established
- Weapons ==> according to class : BFSSG: LaserGun // Gg(Gamerguy): controller // mage classic : frostball (all projectile just change skin ==> same code behind it // same dmg) ...
- Actions ==> jump, fwd bwd, aim high, aim low, shoot, defense?

Player Rewards (power-ups and pick-ups):

- Level up and reward at intermission stage ==> to be determined
- During run : potion for health replenishing // Shield for a few secs // power boost?

For few seconds // Pick up coins for health resplenished weapon upgrade? And answer question for upgrade?

DEMO

High Score Screen: enter your name and your score will appear if it is high enough to be in the top 10.

To do

5 levels

Intermission 1: questgiver meeting + first quest : a horde of demon invested the ruins kills them!

Lvl 1==> fight demons

Intermission 2 questgiver meeting ==> Exp + new quest (help the villagers by recolting fruits or whatever (gameobject))

Lvl 2 : simple collision : fruits falling down and coming up : just touch em and click maybe to get them (limited time) ==< take the collision effect ==> same for all ==> consider apple or else as ennemeis (skin change) that's it : just change I guess from collision = take out life to get point? ==> where to do that? Since collision ? To much / I'll need a collision class w/ : removeHP and addPoint methods

Intermission 3 ==> questgiver: get exp according to how many vegetable u picked + new quest

Lvl 3 : Wave of ennemies ++ ==> more hp, more dmg, more in qty

Intermission 4 : QuestGiver

Lvl 4 : Jump around ==> jump on paltform in a given time (timer), floor's lava!

Intermission5: QeustGiver

Lv5 : BOSS Fight
